ubersuggest	6/10	60%
keywordtool.io	3/10	30%
se ranking	2/10	20%

Action Items

1. Create a dedicated landing page and multiple blog posts explaining the unique 'Jackpot Score' and its value, ensuring this term is explicitly included in product descriptions and structured data.
2. Develop comparison content (e.g., 'JackpotKeywords vs. SEMrush: Affordable AI Alternative') that directly positions the product as an economical, AI-powered solution for small businesses and new SEOs.
3. Publish detailed guides, case studies, and a video tutorial demonstrating how JackpotKeywords generates keywords by analyzing product descriptions without seed terms, targeting queries related to discovery and unique ideation.
4. Implement comprehensive Schema.org markup across the website, including `Product` schema highlighting 'AI-powered product description analysis' and 'Jackpot Score,' `FAQPage` for common questions, and `HowTo` schema for tutorials.
5. Actively participate in SEO and small business communities on platforms like Reddit and publish expert articles on Medium, showcasing JackpotKeywords' unique AI features and affordability to drive awareness and organic mentions.
